Affiliation: Senior Editor, Cancer Team, Nature Communications

Date **Wednesday, 11 October 2023**

Time **16:00 – 17:00 [JST]**

Venue **Seminar Room**  
**[A207] 2F, KUIAS Main Bidg, Kyoto University**

\*Register via the right QR code

### Abstract

Getting your research published is a fundamental and desirable outcome; however, it can be truly challenging to find the right journal to publish your work. In this seminar, I will describe how research publishing is handled across the Nature Portfolio and how to find the right home for your research amongst our journals. I will provide an overview of the different types of journals across the Portfolio, the criteria to select papers for review and publication, and the peer review process, with perspectives from the editorial side. I will also describe some of our initiatives for open access publishing, open data and code sharing, and research collections. Finally, I will also give you some tips on how to prepare your manuscript for submission to one of our journals and how to navigate the publication process.

Organizer : Graduate School of Medicine  
Institute for the Advanced Study of Human Biology (WPI-ASHBi)
