(B1F, Faculty of Medicine Bldg. B)

Brief Biography

Dr. Christiana Fogg is currently a Senior Editor at the journal *Science Immunology* handling papers related to immunology and infectious diseases. She has over fifteen years of experience in scientific publishing, that also includes other journals such as *Journal of Immunology* and *Science Translational Medicine*. Before becoming an editor, she did her postdoctoral training at the National Institutes of Health (NIH) in the lab of Dr. Carole Long, where she studied the innate immune response to malaria and tested subunit vaccine strategies using mouse models.

Abstract

This talk will provide insights into publishing in *Science Immunology* and other members of the Science family of journals. The presentation will include discussion of journal scope and editorial processes, how to prepare a manuscript, and how to determine where a potential manuscript may belong. If you are interested in potentially publishing in *Science Immunology* or in finding out more on publishing papers in general, please join.
