

EMBO | Japan Virtual Lectures

Molecular basis of epigenetic inheritance and totipotency

November 16, 2022 | 17:00 – 18:30 JST

17:00–17:10: Welcome

Prof. Nagahiro Minato, President, Kyoto University, Japan
Prof. Fiona Watt, Director, EMBO, Germany

17:10–17:40: Mammalian epigenetic inheritance at metastable epialleles – *Agouti viable yellow* revisited

Prof. Anne Ferguson-Smith, Pro-Vice-Chancellor for Research and International Partnerships, University of Cambridge, United Kingdom

17:40–17:50: Q&A session

Moderated by Prof. Mitinori Saitou, Director, Institute for the Advanced Study of Human Biology, Kyoto University, Japan

17:50–18:20: Nucleome programming for mammalian germ cell development

Dr. Masahiro Nagano, Assistant Professor, Graduate School of Medicine, Kyoto University, Japan

18:20–18:30: Q&A session

Moderated by Prof. Mitinori Saitou

Open to the life sciences
community in Europe and Japan

Registration:
