

JANUBET symposium

Tools and the study of brain systems. New Vistas!

September 20(Tue)-22(Thu), 2022 @ Kyoto University

Sep 20 (Tue)

Morning

Tools for circuits analyses

Boaz Levi (Allen Institute for Brain Science, USA)
Viviana Gradinaru (California Institute of Technology, USA)
Cliff Kentros (NTNU, Norway)

Afternoon

Development

Lynette Lim (KU Leuven, Belgium)
Flavio Donato (University of Basel, Switzerland)
Guillermina López-Bendito (Instituto de Neurociencias, Spain)

Sep 21 (Wed)

Morning

Motor system and behavior

Aya Takeoka (KU Leuven, Belgium)
Tadashi Isa (Kyoto university, Japan)
Eiman Azim (Salk Institute, USA)

Afternoon

Basal Ganglia and behavioral orchestration

Hidetoshi Amita (Kyoto university, Japan)
Wolfram Schultz (University of Cambridge, UK)
Yoshikazu Isomura (Tokyo Medical and Dental University, Japan)

Sep 22 (Thu)

Morning

Cognition/decision/planning or interactions between PFC/Parietal

Okihide Hikosaka (NIH, USA)
Jonathan Whitlock (NTNU, Norway)
Masaki Tanaka (Hokkaido University, Japan)

Afternoon

Amygdala-hippocampal circuits and emotional memory

Loreta Medina (University of Lleida, Spain)
Maryam Ziaei (NTNU, Norway)
Kei Igarashi (University of California Irvine, USA)

* Registration is required to attend the symposium.
